

SLIIFORM LIBRARY SHELVING

The Sliiform Library System is designed and manufactured by Resource Furniture and has been developed to provide maximum flexibility in library spaces.

The 'one shelf - multiple uses' system offers numerous display options and a range of integrated features offers a versatile, multi-functional library unit.

Materials have been chosen for their strength and durability while still offering a range of colours and finishes to complement any space.

- ① 25mm thick melamine with matching 2mm ABS edge.
- ② 1.6mm multi-functional steel shelf with powder coat finish.
- ③ 150kg rated castors. 2 x locking castors per unit.
